

# Truckload and Bulk Pricing

August 2025

## Split Truckloads Available!

If you can only take 12-13 pallets of one can size but still want FTL pricing, we may be able to split your cans with another customer to get you truckload pricing! Please reach out to [angel@ironheartcanning.com](mailto:angel@ironheartcanning.com) for more information.

## Brite Cans

## Ends

Item	Price per Piece	MOQ	Notes	Lead Time
Deposit or Non-Deposit, Crown	0.0416	1 pallet (637 sleeves)	FOB from NJ	1-2 weeks

*\* Please note these are per unit prices and do not include freight costs.*

## Dunnage

If you are canning with Iron Heart, our bulk and truckload supplies have no dunnage charges associated with them. Our teams will work with you to help pick up and return dunnage. For cans, there will be a \$35/pallet handling fee. For ends, this fee will be \$85/pallet. This fee will go toward the cost of IHC collecting and returning your dunnage to our vendors.

If you are only ordering bulk or truckload quantities but are not canning with Iron Heart, we will pass through all dunnage costs to you. If dunnage is returnable for credit, we will let you know at the time of ordering and instruct you on how to store dunnage for pickup from your facility. You will be credited back dunnage after it has been returned to our vendors and evaluated.
